

CCNA Discovery: Introducing Routing and Switching in the Enterprise

During the Cisco Networking Academy® course, administered by the undersigned instructor, the student was able to proficiently:

- Implement a LAN for an approved network design
- Configure a switch with VLANs and inter-switch communication
- Implement access lists to permit or deny specified traffic
- Configure routing protocols on Cisco® devices
- Perform LAN, WAN, and VLAN troubleshooting using a structured methodology and the OSI model
- Implement WAN links

Dear Mate Molnar

Congratulations on completing the Cisco® **CCNA Discovery: Introducing Routing and Switching in the Enterprise** course as part of the Cisco Networking Academy® program. This hands-on, lab-oriented course has prepared you for exciting career opportunities in the technology industry.

By completing this course you have earned a Certificate of Completion for CCNA Discovery: Introducing Routing and Switching in the Enterprise, and acquired competencies that include the following:

- Implement a LAN for an approved network design
- Configure a switch with VLANs and inter-switch communication
- Implement access lists to permit or deny specified traffic
- Configure routing protocols on Cisco devices
- Perform LAN, WAN, and VLAN troubleshooting using a structured methodology and the OSI model
- Implement WAN links

Technological literacy is more important today than ever before, and Cisco is proud to provide you with the knowledge and skills necessary to build and maintain computers.

Please accept my best wishes for your continued success.

Sincerely,

A handwritten signature in cursive script that reads "John Chambers".

John T. Chambers
Chairman and Chief Executive Officer
